Registration Review FR Briefing for OP.pptx

Been working at this the last 2.5 hours after soccer practice...

Attached are the drafts of the Action Information Sheets, many are completed but some need more info added; particularly the Neonics one, Q4 PID, Q4 ID, and Q1 ID.

Also attached is a draft of the presentation, its by no means complete but I put it together using the original 1-pager we developed for OP and the action info sheets. I think its close or at the very least contains the info we need it to. The tables present the overall summary of the impacts of the DRAs, PIDs, and IDs. Generally speaking we have agreement on most of the mitigation in the PIDs/IDs. I think enough so that we can say this...

Finally I attached the last sheet from Angela detailing everything that is over there. Thought it might be helpful to have all of this in one place.

If you need to talk or ask a question tomorrow you can always call me.
